

MARYMOUNT MANHATTAN COLLEGE

SPRING 2012

GUIDELINES FOR LAB ASSIGNMENTS

DEADLINE: MAY 3rd

Department: Communication Sciences & Disorders
Course Title: Audiology I: Disorder, Diagnosis, & Treatment
Course Number: SPEECH 263 Section1
Instructor: Reethee Antony
Email: rantony@mmm.edu

LAB 4: CLINICAL OBSERVATION/CASE STUDY

Clinical Observation: Submit a report of what you observed at the hospital. The report should include clinician's name, date, venue, timings of your observation, brief patient history (including a brief note on etiology), procedures administered/observed, diagnoses (for both ears), and rationale for diagnoses.

Case study: Click on the provided web link: <http://bit.ly/lq8aKI> . Select your case study number. Go over the case history and the findings. You can do this by selecting the appropriate tabs on the left panel. Focus only on the pure tone audiometric and immittance audiometric findings. Then click on the diagnosis tab. You will have 5 questions: 1) diagnosis of right ear, 2) diagnosis of left ear, 3) probable etiology, 4) clinical management, and 5) reasons for decision. Type your answers in the space provided and then click the option 'Submit answers for grading'. Select Instructor and type my e-mail id (rantony@mmm.edu). You can also e-mail a copy of the answers to yourself. Each group will have to submit one lab report.
